About Us →

NTR, the international renewable energy group, builds and operates green energy and resource-sustaining businesses. Headquartered in Dublin, Ireland, NTR's businesses extend across the United States, United Kingdom and Ireland.

What We Do →

NTR actively manages a portfolio of clean energy assets and renewable waste facilities in the United States, United Kingdom and Ireland. NTR identifies long-term structural growth opportunities, backs the best entrepreneurial teams to exploit those opportunities and supports them with strategic and operational insight and financing capabilities.

Strategy →

Established in 1978, NTR has evolved from infrastructure developments in Ireland to become one of the foremost international pioneers in renewable energy and sustainable waste management. The macro factors of climate change, resource sustainability and security of energy supply underpin the structural growth opportunities for the NTR Group. NTR's strategic response is to build and run green energy and resource-sustaining businesses.

Our Portfolio

Focus of Operations

Stirling Energy Systems, Inc. (SES) is a manufacturer of concentrating solar power electricity generating equipment.

- Design
- System Manufacturing

Tessera Solar, a sister company of SES, is a developer of utility-scale, solar power generating products in North and South America, Southern Europe, Africa and the Middle East.
